

Mandible Chatter

30 cm x 30 cm
12" x 12"

Mandible Chatter is on a 1/4" panel. The paint / resin layer is 3/8" thick with a glossy resin top layer. The painting consists of three paint and three resin layers. The build up of these layers is a bit organic as can be seen in the image above. The finish resin layer was allowed to "roll over" creating a soft rounded edge that distorts light.
